

What are we doing?

Contributed by Daniel Merbecks

Hi,

you will think, CATrain - developement is not continued in the moment - nevertheless this is not correct. For the moment I have to work much unfortunately and I have not the time to program the ideas about new itineraries and so on. But - here you have a first pre-alpha look to the new itinerary editor. It's not finished, there would be also a syntax highlighting.

So - merry christmas and a happy new year to the whole CATrain community.

Daniel
